Speech GPS

Tuesday, April 28, 2026, 7:00 PM EDT

Speech GPS is for novice and experienced Toastmasters alike. This is a brainstorming exercise that can be used in or outside a club meeting. It not only sharpens your skills of building a speech but for those on your team, evaluating a speech. Make sure you (and your club members) are pointed in the right direction with Speech GPS.

Allan Madonik joined Toastmasters in 2002 to help present PowerPoint presentations with pizzazz for his clients in the bedding industry. He has done training for big box retailers such as Serta Mattress, Tempurpedic, Sleep Country Canada, and Ashley Home Store. He is currently the Chief Applause Officer of The Applause Club. They help their clients educate, motivate, and appreciate their audience through the power of presentations.
